MIRACLE FOOD

Virgin Coconut Oil has been called “the healthiest oil on earth” and with good reason.

Its benefits include weight loss, better brain function, skin health and many more. This is a secret that our forefathers have known for centuries, but somehow we forgot. Reminding us of an age old staple in our diet is Shanthini Ahangama's latest venture “Coconut Miracle”.

Shanthini was living in the United Kingdom in 2009 when she received a flyer promoting the health benefits of virgin coconut oil. “When I received the flyer from my cousin Renuka, I fell for it instantly especially since it is a Sri Lankan export product and it gave me stronger ties with Mother Lanka”, explains Shanthini about how she first found out about virgin coconut oil.

“Coconut Miracle was birthed in 2010 when virgin coconut oil was a niche product. Since then, the coconut market has grown rapidly and entered the mainstream. Virgin Coconut Oil although a relatively new product, is classified as a ‘Superfood’. My main aim at the time was to share a natural way of being healthy, and I wanted to do it for as many people as possible. Basically, I identified a gap in the market and thought of seizing it! On a personal note, I classify it as a God given opportunity and I am humbled” says this entrepreneur whose vision is to promote health and well-being through virgin coconut oil and it's by products.

Organic virgin cooking oil is known to be the healthiest cooking oil and is amazingly versatile.

Its uses stretches from cooking to acting as an anti-fungal, antibiotic, weight control, sports nutrition, dental care, cardiovascular health, skin health, nutritive and culinary staple. Coconut Miracle not only offers organic raw cold-pressed virgin coconut oil, but also enhances the healthy food market with gluten-free coconut baking flour, stone-ground organic coconut butter, coconut milk, coconut nectar, king coconut water and coconut flakes.

Coconut Miracle is also the pioneer organic brand in the virgin coconut oil sector in Sri Lanka. Produced under stringent quality standards, the product is certified organic with the UK Soil Association, which according to Shanthini is the differentiating factor for her brand in the market today.

“Coconut Miracle is also a very socially responsible brand.

also extensively promoted the entire range of Coconut Miracle products for many years. For added convenience Coconut Miracle also does to your doorstep delivery.

Shanthini has great plans for her brand in terms of expansion and adding to the product portfolio. "We need to further penetrate the market and diversify. There are a few exciting products in our pipe line...so watch this space!" she adds.

Sustainability is paramount for us and with the Miracle Foundation we support under-privileged children. Our project in 2015 sponsored education for young girls and received very good feedback. So we continued it in 2016 as well and hope to do the same this year" notes Shanthini.

As the city of Colombo also becomes more conscious of health and well-being, Coconut Miracle has taken upon itself the responsibility of spearheading the cause. A health and fitness conscious person herself Shanthini is positive about Colombo becoming healthier. "There is good news lurking everywhere with more people being health conscious, eating sensibly and exercising in many shapes and forms. There are fitness clubs mushrooming even in smaller towns. Accessibility is the key and we are now gearing towards being healthier than ever before."

"Coconut Miracle was birthed in 2010 when virgin coconut oil was a niche product. Since then, the coconut market has grown rapidly and entered the mainstream. Virgin Coconut Oil although a relatively new product, is classified as a 'Superfood'."

With the same idea of accessibility in mind, Coconut Miracle products are available at most Keell Super, Arpico and Cargills outlets. The Good Market at Race Course has
